

**Where you
need to be.**

Knoll

**Every day, in
locations around
the world, Knoll
works with clients
to create inspired
modern interiors.**

Experience a powerful combination of global presence, local relationships, and in-country responsiveness. Understanding what drives you, in the world where you live, allows us to bring your workplace vision to life wherever you do business. We can help you achieve your goals whether you are a multinational corporation conducting business across continents or a local company looking for a world-class partner.

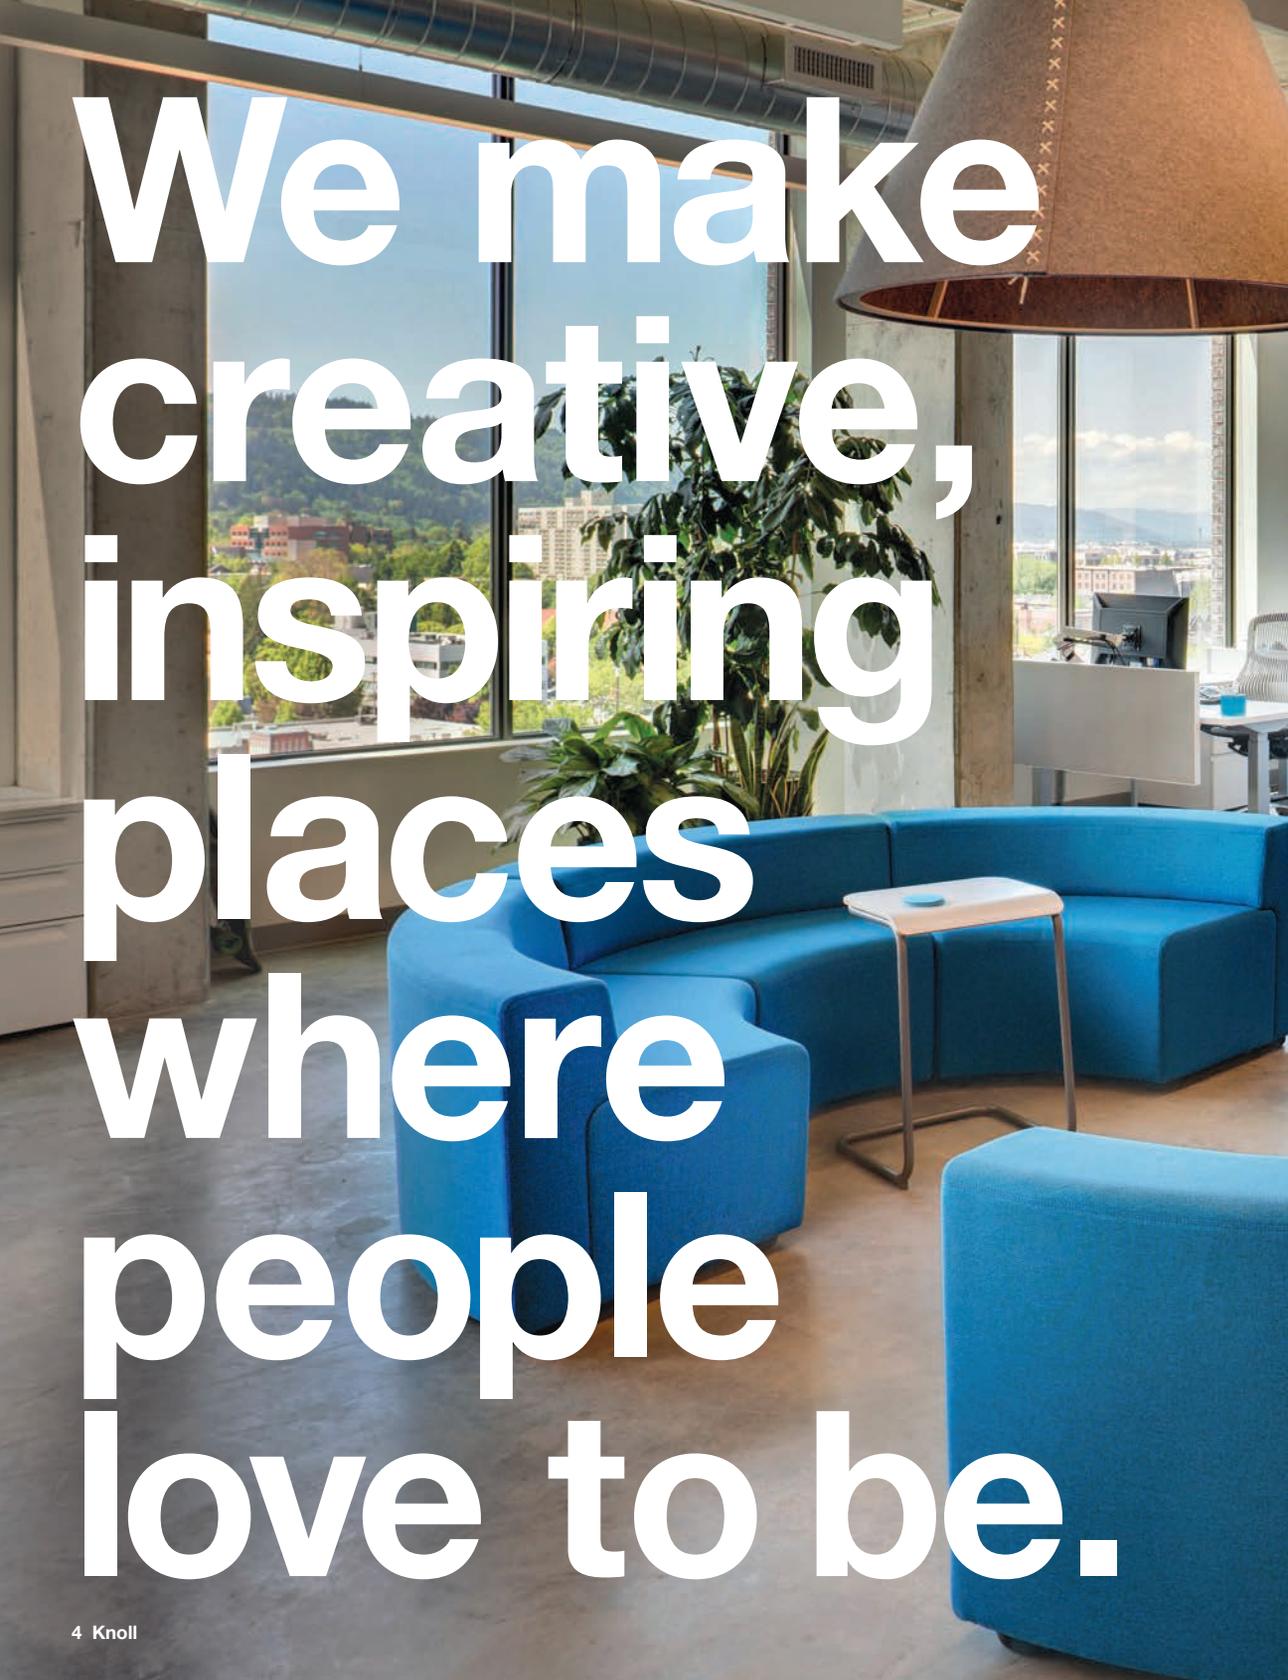

This is possible because Knoll is not a single entity, but a constellation of people, collaborators, products, and brands—united by a rigorous process, shared experience, and a distinct modern sensibility.

A hands-on approach prioritizes your brand values and culture, then leverages our workplace experience. Knoll pioneered a method of design and planning that meets any challenge and drives our work with clients today.

As creative partners, we bring constant curiosity, passion, and an innovative mindset to your project. We challenge ideas around the nature and business of work, focusing on the ways individuals can connect through tailored, personalized solutions.

We make
creative,
inspiring
places
where
people
love to be.

Knoll has collaborated with masters of modernism as well as the most celebrated contemporary designers from around the world. We support these designers, who bring their unique global perspectives, and share their ideals and values.

Every space deserves well-designed objects that deliver efficiency, joy, and satisfaction. That's why our time-tested approach yields workplaces that are efficient, simple, high-quality, and future-looking.

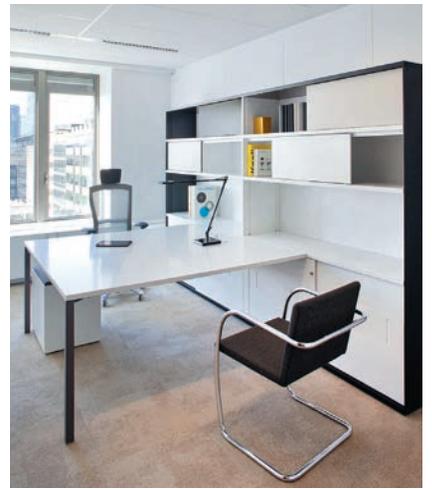

Clean manufacturing practices minimize impact by conserving natural resources and reducing waste. But the most practical form of environmentalism is longevity. Knoll products are designed to endure, both physically and stylistically.

**Things
that work
are things
you keep.**

Your organization can maintain a consistent look and feel, everywhere you work. With eight decades of experience, and an international presence that began with the founding of Knoll International in 1951, Knoll has a comprehensive global portfolio that includes furniture and accessories, textiles, leathers, and felt for architectural applications.

We complement this offering with region-specific products that support varying workstyles and cultural nuances. With showrooms and dealerships in more than 100 countries and manufacturing facilities on five continents, Knoll can support your regional requirements with our truly global product platform.
