MultiGeneration by Knoll

Hybrid & Stacking Chairs

MultiGeneration by Knoll encourages collaboration with a responsive, open design that supports multiple postures and a diversity of people in shared, team and large group environments. The chair facilitates natural movement, allowing us to focus, interact and communicate more effectively.

A The unique hybrid chair design combines comfort and mobility. A buoyant, cantilevered form meets a 4-leg construction with the option of casters. The Dynamic Seat Structure creates an active ride for enhanced performance and comfort.

B The flexing shell of the seat provides comfort and encourages natural movement

C The full, curved back allows for upper body movement and supports the lower back for upright, interactive postures, perforation makes the chair more breathable than typical shell chairs and the rolled top edge serves as an armrest for side sitting—and a handle for easy transport

Warranty

12 Years

STATEMENT OF LINE

Hybrid Base with Fixed Arms

W: 25.6"
D: 21.9"
H: 33.9"

Hybrid Base Armless

W: 20.5"
